Projects & Awards:

Personal Web Portfolio Version 1

Svelte Web Application – Personal Project

Initial Design of a Web portfolio describing me! Reactive format built with Svelte and deployed using Netlify for mobile and desktop platforms.

Seed Sprout Spoon Catering & Events WebSite Redesign

Squarespace – Contracted by Seed Sprout Spoon

Redesigned the Seed Sprout Spoon website to enhance user experience with a clean, modern layout and improved accessibility, optimizing for both desktop and mobile platforms.

Time Travelers (In Progress)

Volunteer Web Application – Missouri Historical Society

A redesign of existing TimeTravelers web page using Svelte framework. End goal is to produce a faster web page utilizing lazy loading and pagination to smooth user experience.

Along The Way

Web Application Capstone Project – LaunchCode

Utilized Angular Framework and Google Maps API to develop a road tripping companion Application

Web and Database Proficiencies: Database Management | SQL | API Development | | JavaScript | Angular | React | Bootstrap | Java | MongoDB | CSS | Svelte

Current Roles

Web Designer (Contract), Seed Sprout Spoon, Saint Louis

July 2024 - Current

Focused on simplifying site navigation and organizing content for a more intuitive user experience. The layout was optimized to ensure easy access to key information, creating a smooth and user-friendly journey. Prioritized mobile responsiveness to deliver a seamless experience across devices as well as considerations for accessibility such as contrast and clear calls to action.

Exhibits Preparator & Art Handler, Missouri Historical Society/Pulitzer Arts Foundation, Saint Louis

June 2021 - Current

Collaborate with the design team to construct and fabricate exhibit components as specified in project plans, utilizing a broad range of tools and techniques to implement exhibit designs in a smooth and timely manner.

Operate specialized equipment such as table saws and scissor lifts to assemble exhibit casework according to blueprints, ensuring accuracy and safety in all construction tasks..

Previous Experience

United Parcel Service — Training and Development Manager

Since September 2017 - April 2024

As a Training Manager at UPS, responsibilities included designing and implementing training programs that emphasized safety, operational efficiency, and customer service excellence. Managed team development, ensuring that employees were equipped with the skills and knowledge to meet performance goals, while also driving continuous improvement in productivity and adherence to company standards.
